"The Graduate College offers invaluable resources to help students achieve their goals. When applying for external funding, I was assisted by Dr. Andrea Hilkovitz, who provided guidance throughout the application process. From the initial information session to the acceptance of my award, she helped me highlight my strengths and craft the story of my academic journey. The services provided by The Graduate College are truly the link between envisioning a goal and actually attaining it."

Chisom Ogoke

Master's Student, Creative Writing
Phi Kappa Phi Fellowship (2019)

"The NSF GRFP consultations provided by Dr. Andrea Hilkovitz from The Graduate College were very helpful. I strongly recommend her service to students and interested mentoring faculty."

Oleg Komogortsev, Ph.D.

Associate Professor, Computer Science
NSF CAREER Award (2012)

Presidential Early Career Award for Scientists and Engineers (2017)
